Getting Started with C the Signs

Admin Guide

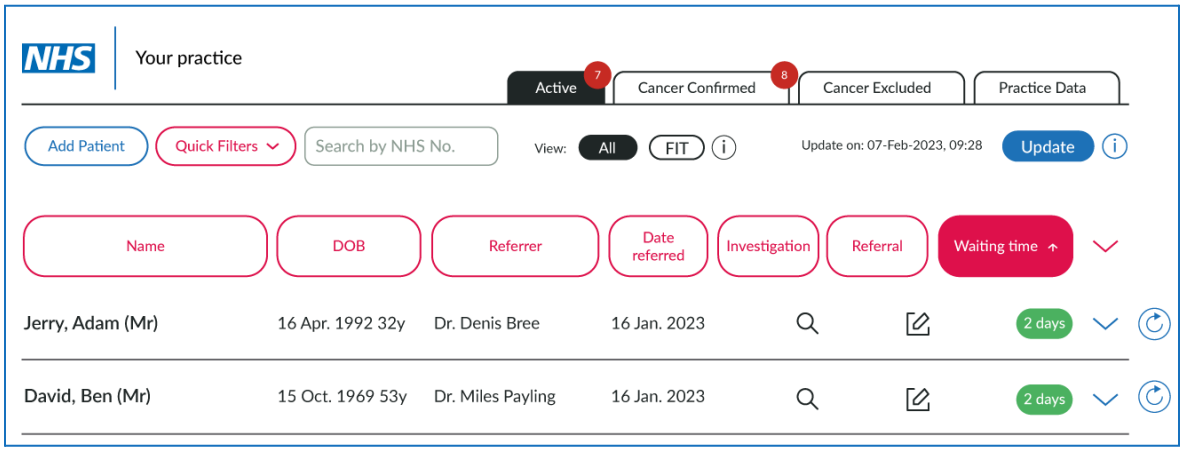

If you have not yet signed up for an account, please view our Creating an Account Guide.

Using the C the Signs dashboard to safety net patients

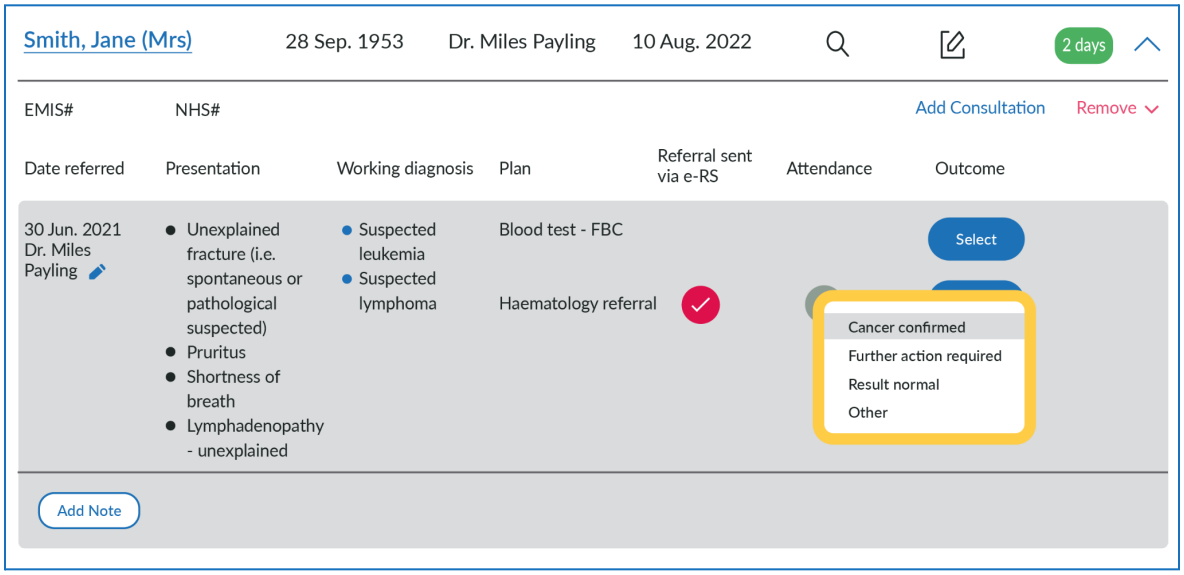

1. To view your **Practice Dashboard**, click on the second button of the C the Signs toolbar:

2. Patients that have had a plan actioned by a clinician through C the Signs, will be automatically safety-netted onto the Active tab. Each patient will have a dedicated entry, where all information needed to safety-net cancer-related tests and referrals can be found.

3. You can view more information about the patient by clicking on the entry. From here you can follow up patients by adding an outcome to their plans, by clicking **'Select'**.

To learn more you can view our full SystmOne Admin Implementation Guide here.
